STATE NEWS.

Androscoggin.

Mr. Russell Daggett, of Lewiston, is importing Langsham fowls from England, with good success.

There are about thirty-five students at Bates College this term. Many are absent, teaching.

Two special trains a day, with cargoes of cotton and coal, are coming into the Androscoggin station at Lewiston.

A Lewiston groceryman, who thought there was too much of himself, commenced to eat but one meal a day, and that at noon, about three weeks ago. He has lost flesh at the exact rate of half a pound a day, since he began the experiment, and is still pruning. He says he feels healthier for it.

Mr. L. H. Bean, of Gorham, whose horse was stolen at Cape Elizabeth, Dec. 25th, thinks the thief sold the horse in Lewiston. He learns that a horse answering the description of his animal was driven into Lewiston a few days ago by a man who disposed of him at a paltry price. Mr. Bean is investigating the case in that city.

The champion small dog is owned by Mr. Charles Bean, of Lewiston. He has a full-blooded English black and tan, seven weeks old, weighing but fourteen ounces. It is expected that when the dog gets his growth he will weigh at least, one pound. An Auburn man raised the dog. Mr. B. can almost put him in his vest pocket.

The Worombo Mill at Lisbon Falls, whose new machinery is just starting up, is said to manufacture as fine woolens as any mill in the country. The sale of the same is mostly in the West. Philadelphia, however, takes a large amount. The mill has lately been enlarged. It now runs over time and even cannot keep up with its orders.

Joseph L'Heureaux caught a boy stealing books from his book store in Lewiston, Friday afternoon. A stout oaken stick lay behind the counter. Joe took the stick and stealing upon the boy from the rear, not only recovered his chattels, but sent the young thief away, a sorer if not a more enlightened boy.

Hon. Wm. P. Frye has been making an effort to secure the letter-carrier system in Lewiston. He writes Postmaster Little that the rules require that the revenue of the office must have been $20,000 the preceding year, or the city have a population exceeding 20,000, neither of which conditions Lewiston can meet this year. As this rule is an iron one, the system cannot be established at present.

As Conductor Knapp's forenoon train from Farmington was coming around a curve near North Jay, Friday, two cars jumped the track and went into the ditch. The cars were a passenger and a smoker. None of the passengers were hurt, except one man, who accidentally put his hand on the stove and burned his palm. Conductor Knapp put his passengers into the baggage car and brought them through. A wrecking train in charge of Roadmaster Wagg went up in the afternoon and got the cars on the track. It seemed an unlucky Friday for Mr. Knapp. One of the cars of his afternoon freight train jumped the track, the same afternoon on the Androscoggin road, between Brunswick and Bath. Some trouble with the trucks is supposed to have been the cause. Very little damage resulted from either accident.

Aroostook.

The shipments from Caribou over the N. B. Railway, for the month of December, 1880, were 214,962 pounds of starch, 12,525 bushels of potatoes, 1,667 M. shingles, two cars rye straw, and two cars of general merchandise. Owing to the scarcity of cars on the broad gauge at Woodstock, the shipments were smaller than they would otherwise have been.

T. C. Craig, of Island Falls, has just been awarded by the trustees of Phillips Academy, Exeter, N. H., a benefit of $60 to aid him for the balance of the present school year, because of the high rank he took in his class. He was one of four in a class of 55, who each received the same amount, won by meritorious deeds.

Cumberland.

The Montgomery Guards, of Portland, are preparing for a trip to Lawrence, Mass., where they will be the guests of one of the companies of the 9th Massachusetts regiment.

A wild steer got loose at the Grand Trunk yard in Portland, Saturday, and created a great excitement on Commercial street until finally lassoed. He managed to pin a man to the side of a car, between his horns, but luckily the man escaped injury.

In a scuffle between a young man named McMahon and another named Cary, in Portland, Friday night, Cary fell and broke a leg in three places. It is feared he may lose the limb.

Lookout for icy sidewalks. In Portland, Mrs. Wilson fell on the icy sidewalk on Congress street, Saturday, and was badly hurt. A man fell on the ice on Smith street, Friday night, and broke his leg.

The farmers on Cape Elizabeth are reaping a rich benefit from their cabbage crop this season. Over six hundred tons were raised there and a larger price is being paid for them than for several years past.

Mrs. Elder Jordan and daughter, of Cape Elizabeth, came very near being suffocated with coal gas a few nights ago. A section of the funnel of the stove became displaced, and the gas escaped into the room. It was a narrow escape, and they were fortunate to escape with a severe sickness, as they did.

Kennebec.

Mr. Fred Hunton, late teller of Auburn Bank and formerly one of the *Journal's* press room force, is now cashier of the Gardiner Bank. Mr. H., at the annual reception of the Amateur Art Club of Gardiner, exhibited a pen picture, entitled "On the War Path," of which the Gardiner *Reporter* says: "It represents an Indian leading his horse in the stream, probably with the intent of throwing the pursuer off the trail. The drawing is true to life, and cannot help exciting a feeling of admiration and wonder, when taking into consideration that it was executed wholly with a common steel pen. Artistic ability, patience and perseverance are combined in this picture, as three years were consumed in perfecting it."

Messrs. Gay & Parsons, of Augusta, manufacturers of the patent rachet screw driver, have increased their force and are manufacturing a great number. They have a large number of orders on hand.

Mr. H. B. Cony and T. S. Fields, with a Benjamin and Allen machine have threshed the past season in Augusta and Chelsea, 6,285 bushels, as follows: 4,181 bushels of oats, 1,612 bushels of barley, 403 bushels of wheat and 59 bushels of buckwheat. The largest lots were: Insane Hospital, 402 bushels; Allen Lambard farm, 273 bushels; J. H. Manley, 200 bushels. They worked 60½ days and threshed 81 lots, setting up the machine 84 times.

The Court room in Augusta was crowded, Saturday. William H. Davenport, of Phillips, a young man who is keeping school in Manchester, was arraigned for assault upon Rosa A. Cottle, one of his pupils. The teacher had established a rule that there should be no whispering in the school-room without permission. Miss Cottle violated this regulation, and the pedagogue punished her by striking her on the hand several times with a chair round. Judge True considered the matter, and decided that the pupil wilfully disobeyed a salutary law made in the interest of order, and the teacher was justified in asserting proper authority.

The *Reporter* says that some of the Gardiner schools that usually average from fifty to sixty scholars in attendance, are at present holding sessions with only ten or twelve pupils, the others being sick with measles and scarlatina, or otherwise indisposed.

Oxford.

A correspondent of the Lewiston *Journal* writes: Thirteen years ago, there were living at Sumner, within one mile of each other, on the same farms on which they were born, Dea. John Briggs, Capt. Hezekiah Stetson, Capt. Joseph Robinson and Wm. Allen, the youngest over seventy-three years of age. Dea. Briggs is living in his ninety-third year, in the enjoyment of his faculties in a remarkable degree, at Waltham, Mass., in a pleasant home, with his wife, at her daughter's, Mrs. Charles Bills. His father, John, was the first deacon of the first Baptist church in Sumner, and when without a pastor he used to read on the Sabbath, a sermon from a book printed in London, in 1660. The book was given me by his oldest child, eleven years ago, at the age of 90.

Sagadahoc.

Mr. J. F. Hayden, of Bath, offers a reward of $100 for the conviction of the persons who set fire to his ice houses last week.

Godey, a young son of Capt. Jarvis Patten, of Bath, was very severely injured last week. While walking up a hill he was struck on one leg by a "coasting" sled, which inflicted most severe wounds, very badly lacerating the flesh, and tearing out quite a length of tendon.

Mr. J. Frank Hayden, of Bath, while engaged in superintending work at one of his ice houses last week, received a severe jam, by one of his legs getting between two large blocks of ice. A cake was being hoisted up the run at the house in Robinson's Lane, when the clamps slipped off and let it slide back, catching Mr. Hayden just below the knee and bruising his leg severely, but fortunately breaking no bones. He will probably be confined to the house several days. The accident catches him at his busiest season when he could ill afford to lose time from his business.

Somerset.

The proposition made to Fairfield by Portland parties to establish a pulp factory has been accepted, so far as guaranteeing $6,000 to $12,000, and the Fairfield people are waiting for them to fulfill their agreement.

Washington.

The Machias Savings Bank has recently declared a semi-annual dividend of two per cent.

James, son of Mr. James Crane, of Machias, is very low with consumption in Hudson, Mass.

The new year found the Machias river closed to navigation. It closed on the last day of the old year.

Alex. Campbell, of Cherryfield, recently slaughtered a porker of fourteen months whose net weight was 765 pounds.

Gardner & Harmon's logging team on the Machias river has been doing a good business. The new year was commenced with a scale of over 600,000 feet on the ice.

At a meeting of the Trustees of Washington Academy, held at the office of I. Sargent, Esq., in Machias, on Wednesday evening, Hon. Austin Harris was chosen Treasurer, vice F. Loring Talbot, deceased.

Mr. Levi McDonald, while at work in the woods about three miles from Machias, met with a painful accident last Tuesday. He was cutting a log, and while his axe was on the down stroke the log suddenly settled enough to allow the axe to pass by and bury itself, with full force, in his right ankle, splitting the bone and making a fearful gash.

A SAD CASE OF DESTITUTION.

A sad case of destitution occurred in New York, this winter. A large number of wanderers were assembled in the Tombs police court, each one in turn declaring himself a vagrant, and being committed to the work-house for the length of time desired. Among them was a young man whose appearance indicated intelligence, though he was clothed in rags and shivering from cold. When called upon, he gave his name and his occupation as that of a school-teacher, and was committed without further inquiry. But the warden of the work-house became interested in him, and when he again gave his occupation as that of a school-teacher, made inquiries concerning the education he had received. The young man said that his father was the principal of the College at Darmstadt, that he knew Greek, Hebrew and Latin, and spoke English, French, German and Italian. The warden called for prisoners of the nationalities indicated, to test his assertion, and they all bore testimony to the fluency and proficiency with which he expressed himself in these different languages. The warden sympathizing with the unfortunate tramp, separated him from his companions in misery. His story is a pitiful one. He came to this country to seek his fortune. He first visited an uncle, a music teacher in Iowa, but failing to obtain employment, went to Cincinnati with no better success. He then came to New York, and made every exertion in his power to find something to do. Ill luck followed him, and he was obliged to sell his clothes and books to get bread. He had written to his father, telling him of his suffering and misery, and asking for assistance to return home. But weeks must pass before he could receive an answer, and meantime he chose rather to accept a vagrant's support than to commit suicide. Little do the prosperous dwellers in a great city, with plenty to eat and drink, and comfortable garments to wear, realize the sufferings of outcasts, who, like this highly-educated young man, have known better days, and who, perhaps, unlike him, are unwilling to accept the shelter of a poor house to save them from starvation.

THE OYSTER BUSINESS.

THE CAPITAL INVESTED AND THE PERSONS EMPLOYED IN BALTIMORE.

The recent extreme cold and inclement weather, says the Baltimore *Sun*, has probably affected no interest more than that of the oyster business. Oysters selling at present for 90 cents to $1.75 per bushel commanded only 25 to 70 cents last season. It is estimated that 4900 dredgers, on 700 vessels, with as many captains, 5148 tongmen and 900 men engaged in "scraping," are employed in Chesapeake bay in gathering oysters. The amount of capital invested in dredging boats is $1,250,000, and the amount invested in other boats, namely, scrapers, runners and canoes, is nearly $1,000,000. Men who work at dredging probably suffer more than any other workingmen in this country. Their labor is onerous, exposing them to all kinds of weather, rendering them liable to disease. Notwithstanding these hardships, there are men who have followed the business for years, and prefer the calling to any other. The wages of dredgers vary from $9 to $15 per month, some of them receiving specific wages, others so much per round trip of the pungy, and others again a share of "the take" after deducting the portion due to the vessel and paying captain's wages. Captain's pay is about $50 per month, and dredgers will possibly average $11 per month. Outside of the large packing houses it is almost impossible to estimate the number of people who make their living by the oyster trade, but recent figures show that there are 1,290 persons engaged in preparing oysters for local consumption. There are 45 oyster packing firms, employing 4,167 males and 2,460 females, whose wages last season aggregated $602,427. These firms have an aggregate capital of $2,500,000. The raw oysters packed were 3,769,353 bushels, valued at $2,272,740; 2,680,039 bushels were steamed and hermetically sealed, valued at $1,244,609. About 700 people are employed in making tin cans, of which 25,546,780 were required last season, their cost being $794,919. When to all this are added the printing of labels, manufacture of wooden packing cases, teamsters, salesmen, the daily special oyster trains leaving Baltimore over the railways leading in all directions, to say nothing of cooks and waiters and "raw box" tenders in the hundreds of oyster and coffee houses throughout the city, it will be seen the oyster interest is almost beyond exact estimate.

WEDNESDAY, JAN. 12, 1881.

A FLOUNDERING JURIST.

Our new Judge of Probate, whose election to office by the Fusionists has caused him to display more political zeal than ever before, prints an attempt at reply to our correspondent "Constitutionality," but that writer has so completely cut all legal and logical ground from under the feet of the learned jurist that he is left floundering in a morass of contradictions and absurdities. We will cite one or two points in addition to those so well put by our correspondent in his rejoinder in another column.

Judge Walker says: "I in no way "claimed, as he represents, that the pro- "vision of the resolve of 1880, relating to "applying the amendment to the election "of Governor for 1881-82, *was included in "the question submitted to the people.*" There he gives away the whole case, by admitting that the people never voted to apply the amendment to the 1880 election. Now what does he claim? He declares "that "the amendment took effect on Sept. 13th, "the same day, and simultaneously with "the election of Governor, and that *there- "fore* the election should be determined by "the provisions of the amendment." And he further says: "It would require *no "retroactive* force in the amendment to "have it apply to the election at the same "time the amendment was adopted."

Well, that is explicit. Now let us follow our floundering jurist another step. He cites the Constitutional provision that "if "it shall appear that a majority of the in- "habitants voting on the question are in "favor of such amendment, it shall become "a part of this Constitution," and insists that a canvass of returns and declaration of the result are not essential. He declares that "*it appears* when the vote is declared in the ward, town and plantation meetings," and that then "the amendment "takes effect by virtue of its adoption by "the vote of the people, *ipso facto*."

We, therefore, have the Constitution amended and the plurality provision incorporated *after* the election has been held, the voting all done, the polls closed, and at the moment when the ballots have been counted and declared. Then it follows that the Constitution was *not* amended *before* the polls were closed, and that the whole authority for the voting and the whole validity of the election were derived from a Constitution into which the plurality provision had not yet been incorporated, but which actually provided that a majority of the votes which were being cast should be required to elect a Governor.

It is just as clearly "retroactive" to apply an amendment backward from the time the ballots are counted in the town-meetings, as to apply it backward from the time of a canvass and declaration by the Governor and Council. Judge Walker seems to have pretty effectually wrestled the life out of the plurality argument.

BANGOR "COUNTED-OUT."

Without imputing any intentional unfairness, it is not improper for us to note that while Portland, Augusta, Lewiston, Auburn, Rockland, Bath, Calais and Saco, of the cities of Maine, were given representation on the Joint Select Committee on Gubernatorial Votes, the Republican city of Bangor, the second city of the State, was entirely ignored. Perhaps it was considered that Bangor did more than its share last year!

WHO IS AFRAID OF THE COURT?

Those who claim to be sure that it would decide the Amendment retroactive, should not fear it.

How many members are there in either branch who *know* that they are warranted under their oath and the Constitution to declare that a plurality elected a Governor last September?

How many are there who feel *no doubt* on the subject?

Is it well to decide a grave Constitutional question of legislative authority by a majority vote in the Legislature?

MR. BLAINE'S INTENTIONS.

[Special Cor. N. Y. Tribune.]

WASHINGTON, Jan. 9. The statements made in Washington papers and elsewhere that the Senatorial struggle in Maine was finally composed by Senator Blaine suggesting that Mr. Frye could have his seat two months hence are without any foundation in fact. Mr. Blaine never made any such suggestion to Mr. Frye or to anyone else. He has no intention, as reported, of resigning his seat in February, and has never stated that he was either going into General Garfield's Cabinet or that he was invited to do so. All the newspaper gossip on that subject from beginning to end, is without authority from Mr. Blaine. There is the highest authority for this statement.

NO COUNTING-OUT OR COUNTING-IN.

[Special Despatch to the Boston Journal.]

WASHINGTON, Jan. 10. Senator Blaine scouts the idea that the Republicans of Maine intend to count Plaisted out. He says the only persons who are really desirous of that result are certain Democratic politicians in Maine who think they could make capital out of it. Mr. Blaine says that such a course on the part of the Republicans would, in Talleyrand's phrase, be "worse than a crime; it would be a gigantic blunder."

Senator Blaine is entirely correct in stating that no Republican wants to "count Plaisted out." Neither do we want to have him or anybody else "counted-in." Senator Blaine understands better than the Boston *Journal* seems to, that the question raised in this State is not one of "counting-out" or "counting-in," but a desire on the part of as true and honorable Republicans as there are in the land that a serious Constitutional question shall be decided by the only competent tribunal and that the result of the election for Governor shall be ascertained and declared justly in accordance with the Constitution and laws.

Hon. Israel Washburn, LL. D., has been elected one of the Vice-Presidents of the New England Historic-Genealogical Society. Among the members who have died during the year was John A. Boutelle, of Woburn, Mass., formerly of Maine.

The N. Y. *Truth*, which brought out the Chinese forgery, reminds C. A. Dana, of the *Sun* that he admitted having the letter offered him and refusing it before it appeared in print, and it calls upon him to state the source from which it came to him and to whom he returned it.

Washington despatches state that Senator Blaine *says* there is not a particle of truth in the report that he is going to build a new palatial mansion at Washington.

JUDGE WALKER'S FALLACIES.

To the Editor of the Whig and Courier:

Permit me to make a brief reply to Probate Judge Walker's article in the last evening's *Commercial*.

The point of that article is, to state it in his words: "Now the amendment takes effect by virtue of its adoption by the vote of the people, *ipso facto*, and instantly, unless they have fixed a future time for it to take effect or delegated the authority to some other person or persons to fix the time."

As I stated in a former communication, the Constitution makes no provision *how* "it shall" be made to "appear that a majority of the inhabitants voting on the question are in favor of such amendment," and therefore legislation *must* supply the omission, otherwise it might *never* be made to appear. Such has been the construction given to Article X of the Constitution ever since its formation. Not *one* Resolve, submitting an amendment, has ever been passed by the Legislature which did not provide *how* the result should be made to "appear."

Now, if it should *never* be made to appear, how could it be known that it had been amended?

But my learned friend goes farther, and claims that, no matter *when* it shall be made to appear, etc., it is amended and takes effect by virtue of its adoption by the people, and of course at the moment of the closing of the polls.

I again take issue with his conclusions and assert that such has never been the construction given by the Legislature.

To illustrate: Prior to 1846 the Constitution required that Representatives to the Legislature should be elected by a majority of all the votes cast in their class. In 1847 the Legislature submitted a Resolve to the people for amending the Constitution by striking out the words "a majority of all the" and inserting the words "the highest number of." That Resolve provided that the result should be *made to appear* by the clerks of the several cities and towns returning the lists to the Secretary of State, and that "the Governor and "Council shall count the same and *make "return thereof to the next Legislature*, and "if a majority of the votes are in favor of "any of said amendments, the Constitution "shall be amended accordingly."

Now, applying Judge Walker's reasoning to that amendment, it took effect on the day of the election, and the persons voted for on that day as Representatives to the Legislature who received the "*highest number of votes*," were elected. But as matter of fact the persons who received "*a majority of all the votes*" cast on that day were understood to be elected and took their seats, and no protest was heard or thought of by any one in this State.

The same state of facts has happened in the resolve changing the election of Senators from majority to plurality. In fact, I would be pleased to be shown a single case in the history of this State or of our Mother Commonwealth where an amendment to the Constitution operated upon and controlled the election of officers voted for on the same day.

I submit, therefore, without further elaboration, that with *all* precedents in opposition to the doctrine laid down by the learned Judge, with the opinion of Judge Davis in the case of Burton vs. Kennebec Co., against him, the plain people will require more than simple theory to satisfy them that a new rule of construction shall, for the first time in fifty-nine years, be now applied to the amendment of the Constitution.

CONSTITUTIONALITY.

THE LAW AND ORDER PARTY.

To the Editor of the Whig & Courier:

I have always felt a pride in the Republican party because I believed it to be the party of order and law. I was surprised, therefore, when I saw in yesterday's despatches that the Legislature would probably "declare Gen. Plaisted elected Governor without submitting to the Court the plurality question."

Will the Republicans of the Legislature, or any of them, so stultify themselves? Will they establish such a precedent? Better far, if they wish to propitiate General Plaisted or the Fusionists, go into convention and elect him, that will be frank at least; and it will save the party the consciousness of having overriden the law or undertaken to evade it.

ONE OF THE PLAIN PEOPLE.

In a very weak and intolerant article the Boston *Journal* flings abusive epithets at a large number of earnest and intelligent Republicans of Maine, and thereby earns the commendation of the Boston *Globe*.

Secretary Sherman, being asked the effect of adjournment without passing any measure for refunding, replied that such folly would cost the government over $1,000,000 a month.

In reply to a newspaper interviewer's inquiry as to what he considered the most important political question to be met in the near future, Hon. Eugene Hale said: "The first of all would be whether or not every voter in every State should be protected in the exercise of his rights; that is, whether or not we shall have a free and fair ballot."

ABSOLUTE CERTAINTY.

The incomparable merit of life insurance is to provide with absolute certainty for the family the money value of the life of the husband and father in case of his death. Whatever puts the safety of this provision in the slightest peril, or adds any element of uncertainty to it, is evil. Take certainty from life insurance, and it is not worth paying anything for; it is a broken reed, a mere delusion.—*Jacob L. Greene, Connecticut Mutual Life Insurance Company.*

FELLOWS' SYRUP

Is a combination of Hypophosphites, originated by me in Canada, while under the process of pulmonary consumption, and which has since been employed by the medical profession throughout America and England with unprecedented success.

It contains the elements essential to the animal organization, the oxidizing agents and tonics.

In combination with the stimulating agent phosphorus, possessing the merit of being slightly alkaline, and is dispensed in the convenient and palatable form of a syrup.

Its effects are usually visible within twenty-four hours and are marked by a stimulation of the appetite, the digestion and assimilation, entering directly into the circulation; it tones the nerves and muscles; exerts a healthy action of the secretions; neither disturbs the stomach nor injures the system under prolonged use, and may be discontinued at any time without inconvenience.

In a word it possesses the stimulants to arouse the strength, the tonics to retain it, and merit of a high degree. Very respectfully, JAMES I. FELLOWS.

The return was accepted and the record ordered corrected accordingly by a vote of 13 to 1. The vote was afterward rescinded and the matter laid on the table till afternoon.

FOREIGN NEWS.

Brief Notes.

LONDON, Jan. 11. Yesterday's meeting of English and Irish Liberals to express dissatisfaction at the incompleteness of the changes proposed in the land system, is attracting much attention.

The News says: It has become abundantly manifest that a strong measure will receive abundant support, while a weak one will cause defections from the Liberal ranks and strengthen the House of Lords.

The Times says a party of politicians, English, as well as Irish, is conveying the menace, not in words but quite intelligibly that unless sweeping changes in the land system, going far beyond the act of 1870 are proposed a stand will be made against coercion.

The London correspondent of the Manchester Guardian mentions with some degree of credit, the rumor that Earl Cooper desires to resign the office of Lord Lieutenant of Ireland, principally, however for private reasons.

ST. PETERSBURG, Jan. 11. The investment of Geoktepe has been effected by Gens. Kouropatkins and Skobeleff by an attack on the trenches of the Tekke Turcomans which lasted three days. The Russian loss was small while that of the Tekke Turcomans is reported as being enormous.

PARIS, Jan. 11. Official assurance is received here that Russia has unreservedly approved of the arbitration on the Greek question. This assurance renders European concert once more complete and the action cannot but stimulate the hopes of peace entertained during the last few days.

In a railway collision near Chateau Thierry, to-day, two persons were killed and thirteen injured.

The Republicans at the municipal elections are thought to have carried 100 communes out of 108 in Corsica.

GUILTY OF WRONG.
Some people have a fashion of confusing excellent remedies with the large mass of "patent medicines," and in this they are guilty of a wrong. There are some advertised remedies fully worth all that is asked for them, and one at least we know of—Hop Bitters. The writer has had occasion to use the Bitters in just such a climate as we have most of the year in Bay City, and has always found them to be first-class and reliable, doing all that is claimed for them.—*Tribune.*

OFF THE TRACK. The E. & N. A. train did not arrive in this city until half-past nine o'clock last evening, on account of an accident on the St. John & Maine. As the train was running from McAdam to Vanceboro, the mail car left the iron on account of a loose wheel, but no damage was done. The accident caused a long delay as it took some time to get the car on the track, and the train coming this way did not leave Vanceboro until half-past four o'clock.

WENT UP HIMSELF. Between five and six o'clock yesterday afternoon, as one of the police officers went up to the station house he was somewhat astonished to find a man at the door waiting to be locked up. The man was very much intoxicated and wisely concluding that the station house was the usual place where men in his condition were accommodated, he drove up there with his team and waited the arrival of the police. He was taken inside and furnished quarters for the night, after which his team was cared for by the officers. It is not very often that the police find their guests so easily disposed of.

The affairs of the company are in a flourishing condition and the demand for their product rapidly increasing. The Marbleizing Company recently established in this city have found the Blanchard slate admirably adapted for the process and will probably require a large part of the product of the quarry.

MAIL SERVICE EMPLOYES. New England employes of the railroad mail service met at the Sherman House, Boston, Saturday afternoon to perfect a mutal benefit organization, several preliminary meetings having been held. A constitution and by-laws were adopted. The formation is named the Railway Mail Relief Association. Its object is to "secure pecuniary aid to the widows, orphans, heirs or devisees of deceased members." The organization is an independent one, but some of the members belong to the United States Railway Service Mutual Benefit Association. The relief association is composed of only New England mail service employes. Officers were chosen as follows: President, Charles E. Moore, of Springfield; Vice Presidents, F. B. Roundy, of Boston, Joseph H. Jacobs, of Thomaston, Me., G. O. Bacon, of Burlington, Vt., J. A. Lucas, of Wickford, R. I., R. D. Lane, of Hartford, (a Vice President from New Hampshire will be chosen at the next meeting, it being the intention to have one from each New England State.) Secretary and Treasurer, H. O. Cole, of South Boston; Trustees, D. A. Holmes, J. M. Leavitt, R. C. Hall, A. H. Wilkins, C. H. Stone.

THE "TEMPEST." The Portland *Press* says: Mr. Fred Shaw, of the Falmouth Hotel, who has attained a well-deserved reputation as an artist, has just completed a beautiful statuette of a female figure which he has aptly termed the Tempest. The idea conveyed is that of a young girl who, crossing the moors, is swept along by the force of a severe gale. The artist has taken advantage of artistic license and robed the figure in slight drapery which serves to display, rather than conceal, the beautiful outlines of a rounded well-proportioned form. A portion of the dress has been blown over the back of the head, like the hood of a cape, and the girl has placed her right hand and arm before her eyes, partly to shield them from the weather, and partly to keep the drapery from them. The face is intellectual and refined, and bears an eager, yet annoyed expression, as if the maiden feared her progress would be delayed. The right arm and hand are indicated rather than delineated by the sculptor's skill, and the folds of the drapery, as blown about by the wind have all the delicacy and grace that pertain to a soft woolen garment. The anatomy of the figure is excellent. We are glad to know that Mr. Shaw has decided to put the statuette on exhibition at Davis', and will now commence work, on a new ideal, intended as a companion to the above, entitled the "Comet."

AN OLD HABITUE OF THE STAGE.—There is, in a shoe factory at West Auburn, a shoe-cutter who is an old habitue of the stage, and who, probably, is more thoroughly steeped in dramatic lore and reminiscence, than any other man in Maine. He is a modest and unassuming person, and although he has a wide circle of friends, few are acquainted with his biography and talents. He was educated for the stage. He has played with Edwin and J. Wilkes Booth, John E. Owens, Warren, Shewell, Joe Proctor and other great actors. Many of the most famous actors on the boards, to-day, are his personal friends. He played with Wilkes Booth in his last engagement at the Boston Museum before Booth assassinated Lincoln. Our subject is no mean actor, himself, although he has quitted the profession for moral reasons. He is well versed in both the old and the new schools of acting. Our reporter heard him give an imitation of William Warren, in the "School for Scandal;" a few evenings ago, that would have made the old comedian emit a particularly hoarse chuckle. He is dark-featured and has piercing eyes, and when he essays heavy tragedy, his look, walk and gestures are tragic in the most stagy degree. Few men have such a power of expression. He is excellent in comedy, when he shaves. He once played "Solon Shingle" two nights in Auburn and made a big hit. He is the only man who can approach Barnabee in "There's Nothing so Good as a Laugh." There is no end to his versatility. He emerges once in a while from his retirement. Lately, he has been reciting Darius Green, and giving a few bits of acting, to the vast delight of West Auburn audiences, at temperance entertainments.—*Lewiston Journal.*

PENOBSCOT CONFERENCE.

Semi-Annual Session at Brewer.

The churches were rather late in reporting on account of the severe storm, but at ten o'clock the meeting of prayer was held and at 10.30 they proceeded to business, with Dea. P. A. Snow in the chair, till 11 o'clock, when a sermon of great interest and much power was delivered by the new Professor in the Theological Seminary, Rev. L. F. Stearns, whom the Conference gladly welcome.

The benediction, by Rev. E. C. Crane, of Holden, closed the forenoon session.

AFTERNOON.

The meeting of prayer was lead by Rev. H. A. Freeman of Oldtown, and at 2.30 the Conference proceeded to listen to the reports of churches. These reports on the whole were encouraging, though no great revival has occurred in any of the churches. The Conference then proceeded to the examination of Mr. F. B. Denio, whose ordination followed in the evening. At 3.30 the meeting of the Women's Board of Missions was held in the chapel and was addressed by Mrs. Greenwood, wife of Rev. Wm. Greenwood. Reports were presented from the several auxiliaries in the Conference.

The Council called by the Hammond street church, after the reading of the call organized by the election of Prof. L. L. Paine as moderator, and Rev. C. S. Sargent, Scribe.

After reading a prepared statement by Mr. Denio and a thorough examination, the Council voted to proceed to the ordination in the evening, and at seven o'clock the following programme was presented: Reading minutes by Scribe; Invocation and reading of the Scriptures by Professor Paine; Ordaining prayer, Prof. Sewall; Charge, by Rev. G. W. Field; Right Hand of fellowship, Rev. C. A. Beckwith.

The ordination was followed by an intensely interesting address by Prof. Paine, on the development of the youthful Christian element in our churches. Rev. A. Redlon, of the Kennebec Conference, Rev. S. W. Chapin of Vermont. Rev. A. J. McGown of Orono, and Prof. Sewall took part in the discussion. The interesting services closed with the Doxology, and the benediction by Rev. F. B. Denio.

The exercises to-day are as follows:

9.00 A. M. Devotional exercises, conducted by Rev. Dr. Chapin, of Vermont.

9.30 Bible Revision, by Rev. S. L. B. Speare of Bangor.

10.00. Discussion. 1—The Church as a social force, introduced by Rev. E. C. Crane of Holden.

2—The Church as an educational Force, President M. C. Fernald of Orono.

4—The Church as a spiritual force, Dea. C. A. Bailey, of Oldtown.

AFTERNOON.

2. Conference Sermon. Rev. C. S. Sargent, Brewer Village. Followed by the Ordinance of the Lord's Supper.

Omnibus leaves at 8.30 A. M. and 2.30 P. M. from M. Gilligan's, E. F. Duren & Co's store, and T. G. Stickney's office.

MAINE CENTRAL RAILROAD.

The Receipts of Flour, Corn and Feed at this station.

We are indebted to the officials at the Maine Central freight office for the following figures showing the amount of flour, corn and feed received at the Bangor station during the year 1880:

Barrels of flour,	77,300
Bushels of corn,	129,500
Tons of feed,	1,440

These figures show an increase of 20,000 barrels of flour and 400 tons of feed over 1879.

The increase on the net freight business at the Bangor station for 1880 amounts to $35,817.32.

MERCHANTS NATIONAL BANK.

The stockholders of this Bank met and adjourned for one week when their election will take place.

Mr. Blake, President, announced the death of the Hon. Asa Smith, and of Francis Hill, Esq., two members of the board, and made a few remarks appropriate to the occasion. The following Resolutions were then offered and unanimously adopted:

Resolved, That in the recent death of two of our associates, the Hon. Asa Smith of Mattawamkeag, and Francis Hill, Esq., of Exeter, the Merchants Bank has lost the counsel and advice of two able men, men whose large means and lives long spared had given them deserved weight and authority upon all financial questions. Mr. Smith and Mr. Hill were directors of the Merchants Bank from the time it first went into operation under a State charter to the present time under its organization as a National Bank, and during this long time of almost half a century we are not aware that any advice or wish of either was ever disregarded by the Board of Directors, or that any advice of theirs was ever given that did not tend to the success of the institution. We have been learning from year to year more and more to appreciate their integrity, their judgment and their character, as we have more and more come in contact with their worth and their virtues. They were cautious rather than daring in business ventures, and careful always in the performance of all trusts and engagements, but their shadows now only remain where their venerable presence was wont to inspire respect and confidence. To the communities in which they lived, they have each left the example of a well spent life, and to the their families the consolation of love and, more than all, the faith that like a star shall light the way in this night of their bereavement to duty and to Heaven.

Resolved, That we deeply sympathize with the families of the deceased in their sorrow and we ask leave to tender our affectionate condolence and our kindest regards.

Portland and Calais Harbors.

Secretary Ramsey sent to the House, Monday, a letter from the Mayor and Aldermen of Portland, asking improvement of their harbor, and particularly by dredging of the middle ground, accompanied by a report from Gen. Thom recommending the dredging desired. Gen. Thom says that the "middle ground" being the only part of the harbor that can be advantageously used for wharves for ocean steamers and large sea-going vessels, and as greatly increased facilities appear to be demanded by the foreign commerce now carried on and contemplated, in connection with the Grand Trunk and other railroads centering in Portland and the North and South, the improvement proposed is becoming a necessity too important to be deferred. To remove the middle ground, now having on it about ten feet of water at mean low water, to a depth of twenty-one feet at mean high water, giving thirty feet at mean high water, so as to make it uniform in depth with the contiguous part of the harbor, would require about 66,600 cubic yards of dredging, which would cost about $160,000, of which amount $60,000 could be profitably used next year.

The Speaker also laid before the House a letter from the Secretary of War, transmitting the report of Gen. Thom upon the breakwater in the St. Croix river, below Calais, Me., in response to the resolution of inquiry respecting it offered in the House some weeks since by Mr. Frye. Gen. Thom says the breakwater, which is upon the ledge on the Maine side of the channel, five mile below the bridge at Calais, was built many years ago to keep vessels from striking on the dangerous ledge before which it stands. The rapid current of the river turned toward it, and, in its absence, navigation would be perilous. It is now in a dilapidated condition, and in imminent danger of being carried away by ice and freshets, and should be rebuilt at once. Repairs would be useless. Gen. Thom estimates that $4,000 will be enough to build a breakwater more substantial than the present one ever was. This amount will probably be incorporated in the River and Harbor bill.

Ice on the Hudson.

The New York *Evening Express* of Friday contains the following interesting facts and figures pertaining to the present condition and prospects of the ice harvest on the Hudson:

The snowfall of Tuesday and Wednesday nights, together making a total depth of about eleven inches, has materially interfered with the gathering of ice at all points along the river between this city and Albany. Fully one-half of Wednesday, and probably a longer time to-day, was consumed in clearing the surface of the ice of the snow accumulations thereon. The companies engaged in harvesting deprecate this loss of time, saying it is the opinion of their most experienced men that a disastrous thaw is likely to occur on any day, and that all the time and men to be had at present were needed to cut and house the ice at once.

The crop now being harvested ranges in thickness from eight to ten inches, according to location. The price paid for labor is from $1.25 to $2 per day for man and $3 to $4.50 for horses. In houses abutting on the river, in which the most modern machinery is used, ice has been harvested at from eight to twelve cents per ton, while in other houses the cost will range from ten to twenty-five cents per ton. At present there are said to be about 6000 men and boys and 1800 horses at work on the ice of the river, and an estimate made places the harvest, when completed, at 2,500,000 tons. In 1878 the total quantity housed was 1,498,500 tons; in 1879, 2,061,500 tons, and last winter but 150,000 tons. These 2,500,000 tons, which it is supposed will make this year's crop, can be taken from a surface of 2500 acres—that is, supposing the cakes to be twelve inches in thickness. The waste in storing and handling is estimated at from 30 to 50 per cent, which would leave the amount for actual consumption at from 1,250,000 to 1,750,000 tons.

Ice from fourteen to sixteen inches thick is considered the best for transport trade, and the New York companies intend to put up stacks of ice of this thickness wherever convenient. The difference in the thickness of the ice is attributed to the depth of the water. While in one place the congealed surface is sixteen inches thick, a mile below it is but eight and ten inches thick. Ice gatherers say that the ground keeps the water warm; and where the water is the shallowest the ice is the thinnest.

During the first two weeks of the harvest more ice, it is claimed was gathered than during the whole of last winter. It is also claimed that the Knickerbocker and other large companies have only about half of their houses filled; this is certainly the condition of the houses in the vicinity of Kingston, but if a low temperature prevails for a fortnight longer every ice house along the river, from Albany to Marlborough, will be filled with excellent ice.

SNOW-BOUND.

Relief Sent Out to Virginia's Buried Hamlet—How the Villagers Live in Their Icy Surroundings.

[Special Dispatch to the Boston Herald.]

BERRYVILLE, Clark County, Va., Jan. 8, 1881. The relief party which was dispatched from here to the snow-bound village of Paris, yesterday, succeeded in reaching its destination, after an exhaustive and dangerous journey, during which all of the party were painfully frost-bitten. To-day Charles A. Watson, one of the four who made the trip, returned here, bringing additional information as to the condition of the villagers, and also the details of several other catastrophes resulting from the heavy snow, which continues to fall. The relief party, which left here in a mammoth four-horse sled, made rapid progress for four or six miles, but, when they reached the foot of the mountains, the roads became almost impassable. Several drifts were encountered of incredible proportions, while the men were rendered nearly helpless by the cold. One of the horses got stuck in a snow drift and was abandoned, the third horse being led as a reserve. During Thursday night the party only made four miles, the crust of the snow not being strong enough to bear the sled, which broke through again and again, compelling the half-frozen men to get out and walk. They kept bravely on, however, and reached the village by 10 A. M., Friday. Not a sign of life could be seen, and the new-comers at first thought that they had arrived at

A CITY OF THE DEAD,

only to die themselves. They urged on their only two horses that had survived the night, and, traversing the main street, finally reached what they judged to be the schoolhouse, where the committee of 15 had established itself. The building was almost hidden from view, but as four despairing cries rang out, a faint response was heard, followed by a man's head emerging from an opening cut in the wall 20 feet from the ground. He proved to be Mr. Wright, the energetic head of the committee, who quietly summoned his men and had the relief party carried into one of the houses, which, in honor of its arrival, was soon glowing with a generous fire. In the other occupied houses only small fires were burning, as the fuel had become very low. As the supply could not be replenished, nearly all were suffering from terrible frost-bites and were almost incapacitated from work. The women and children were also suffering, although given the warmest rooms and supplied with old clothing in which to wrap themselves. After the four strangers had partially recovered, Mr. Wright summoned the committee, which, since last Monday, has been governing the villagers with an iron hand. An inventory of the stock of fuel and provisions showed that there were only four cords of wood and a number of old buildings left with which to keep the fire going. As to provisions, the committee had seized the stock of the two village grocery stores, which, together with the frozen game, allayed all fears of immediate starvation. The contents of the sleigh, consisting of medicine, soft linen for bandages, canned fruits, preserved meats, wine and liquors generally, proved an invaluable

ADDITION TO THEIR LITTLE STORE.

The doctor, who formed one of the relief party, at once went to work in the hospital, relieving the exhausted physician in charge, who, with nearly 100 cases to care for, had not been to bed for over a week. The committee expressed the opinion that it would be able to get along for another week, without further aid, provided the snow ceased and a crust formed. This would allow forage parties to walk without serious trouble, and they could then doubtless procure fuel. Mr. Wright, who appears to be omnipotent, then expressed the wish that some one be dispatched back to Berryville the next morning to allay the anxiety of friends and relatives of the snow-bound hamlet. Mr. Watson volunteered for the dangerous journey, and preparations were commenced for his departure the next day. The committee has made a number of excellent rules for the government of the village. In the early part of the week the strength of the men was daily tried by their efforts in cutting tunnels through immense drifts which every night formed around many of the houses. The committee determined to stop this, and detailed a number of men to each inhabited house, who were given a supply of provisions and fuel. One man was placed in charge and the house closed indefinitely. The snow was then allowed to accumulate at will, and, as a consequence, one-half of the villagers were prisoners when the relief party arrived. Every morning each house furnishes its quota of men, who are lowered by ropes or ladders from the roof of the

HALF-BURIED DWELLINGS.

These men make a tour of the village, ascertain the condition of the sick and then depart on their search for fuel and birds. These latter, as well as deer, foxes, coons and chickens, are succumbing to the cold by thousands, and the villagers, by gathering them before they are covered by the snow, obtain a wholesome and agreeable article of diet. The daily struggle through the snow is attended with varying success, the party usually returning about noon. Mr. Wright then gives to each man a generous drink of whisky or brandy, and the exhausted villagers return to their homes, being generally hauled in through windows or roof. Mr. Wright has every drop of liquor the village contains locked in his own home. At first the ardent was in charge of the committee, but the energetic chief found that they were not all to be relied upon, several getting gloriously drunk. He thereupon had the barrels removed through the snow with great difficulty to his own house, where either he or his sons mount guard, at all times with pistol in hand, to prevent it being stolen. If it were not for this precaution, dozens of the men would be continually intoxicated, endangering their own and others' lives. Many of the houses, by direction of the committee, have been torn down to the second story, the wood being used as fuel to keep warm the little garrisons on the lower floors. Mr. Watson left the village early this morning, and, being supplied with a fresh team, found much less difficulty in getting through the snow. The ice crust on the surface had become strong enough to bear his sleigh, and he reached here without mishap. The snow has ceased falling, and, as the ice crust, the hope of the villagers, is rapidly hardening, it is probable the blockade will soon be broken.

The petition will also be circulated in the city for signatures:

To the Senate and House of Representatives in Congress assembled:

We the undersigned, men and women of these United States, do most respectfully but most earnestly pray the Houses of Congress to take all needful steps to prevent the encroachment of white settlers upon the Indian Territory, and *all* Indian reservations; also to keep all treaties with the Indians until they are changed by the mutual and free consent of both parties; and to guard them in the enjoyment of *all* the rights which have been guaranteed upon the faith of the Nation.

The old Family Physician at Fault—Dr. David Kennedy the Successful Surgeon.

Money is the universal necessity, and none but a cynic or a fool will affect to despise it. Mr. Abram Elsworth, of Port Ewen, Ulster county, N. Y., had realized this truth. His disease involved the whole of his thigh-bone, and the suffering man looked forward, not without apparent reason, to death as his only deliverer. His family physician refused to amputate the limb—asserting that the operation would kill the patient on the spot. Dr. David Kennedy, of Rondout, N. Y., who was consulted, held a different opinion and amputated the limb. The Doctor then administered freely his great Blood-Specific FAVORITE REMEDY to afford tone and strength to the system, prevent the return of the disease, and Mr. Elsworth remains to this day in the bloom of health. This gentleman's disease was the offspring of foul blood, and Kennedy's FAVORITE REMEDY purified the blood and restored to him the power once more to enjoy his life. Are you suffering from any disease traceable to the same cause? Try Favorite Remedy. Your druggist has it. ONE DOLLAR a Bottle. Bear in mind the proprietor's name and address: Dr. David KENNEDY, Rondout, New York. jan6 d&wlm

THE TRUSTEES OF THE

M[AINE] [GENERAL]
HOSPITAL,
Make this Public appeal for Aid.

It is desired to enlarge the Hospital building and to add to its facilities for serving the community.

The work of the Hospital has been steadily increasing since its foundation in 1871. During the past year a larger number of persons than ever before have been received into the building, and the demand for the treatment of free patients is now more pressing than at any previous time.

The need of larger accommodations for the various departments is very great. It is deemed by the Trustees to be a matter of absolute necessity to add to the Hospital building a surgical ward, a lying-in ward, and a children's ward; and funds are also imperatively needed to maintain the work at its present point of efficiency and success.

The Trustees hope that the friends of the Hospital and all who have any knowledge or experience of the benefits that it has conferred, will answer this appeal with the same generosity that was displayed at the time of its foundation; and that liberal donations and annual subscriptions will be given to meet its immediate requirements, as well as to greatly increase its means and opportunities for usefulness.

Subscriptions and Donations may be sent to ISAAC FENNO, Treasurer, 23 Summer street, Boston, Mass.

President—CHARLES H. CODMAN.
Secretary—MISS ELLEN F. CORLINGHAM.

The undersigned, administratrix of the estate of Hill Stackpole, late of Levant, in said County, deceased, respectfully represents that the goods and chattels, rights and credits of said deceased are not sufficient to pay his just debts and charges of administration by about thirteen hundred dollars.

Wherefore your petitioner prays your Honor to grant her power to sell by license at public or private sale, and convey the whole of the following described real estate of the deceased, (including the reversion of the widow's dower therein), as the residue would be greatly depreciated by a sale of any portion, viz: All the real estate of which the deceased died seized, situate in said Levant, including his late homestead estate, to satisfy said debts, expenses of sale, and charges of administration.
